## Pastor's Corner

Dear Brothers and Sisters in Christ,

Last weekend was one of those weekends that when I put my head on my pillow Sunday night I said, "I love being a priest." The weekend started on Saturday with a funeral for Seb, who died at 100 years old! The death of a loved one is never easy but when the person is 100 and a man of God, I think we can all say it was time. Then in the afternoon I witnessed the marriage vows of Katrina and David, a wonderful couple who are starting their married life together. After the 7:30 Sunday Mass, I had the privilege of saying the nuptial blessing from the marriage rite over Doanh and Hau who were celebrating 52 years of married life together. At the 10:45 Mass, I had the honor of baptizing Danicamarie, all of three months old, into the Catholic faith. It was my turn on the preaching rotation, so I preached at all six Sunday Masses. If that was not enough, God sent a lost Catholic sheep who has been away for decades to talk to me and a Protestant who wanted to know more about the Catholic understanding of the Eucharist. Wow! God is good. However, I didn't win the Megamillions billion plus dollar grand prize, so I am a little mad at God for that.

I recently read a book entitled, "The Language of God: A Scientist Presents Evidence for Belief" by Francis S. Collins. The author became an atheist in his youth and went on to become a world-renowned scientist. In fact, Mr. Collins is a physician/geneticist who discovered the genes associated with a number of diseases, which led the Human Genome Project. He is currently the director of the National Institutes of Health in Bethesda, Maryland. This is a real smart guy. Along the way Mr. Collins rediscovered his Christian faith. His book is his understanding of how faith and science complement each other. Mr. Collins acknowledges that both disciplines have their expertise and limitations, and can learn from each other if they are intellectually honest. I really like his six principles of theistic evolution that I believe, believers and scientists can agree upon regarding the question of evolution. He also has a really clever way of rectifying the Big Bang theory, given to us by the Catholic priest Georges Lemaître, and Free Will, given to us by God. It is worth a read. After, of course, you have finished your homework from last weekend's homily, which was to read the Letter to the Hebrews from your Bible!

God Bless,  
Fr. Jerome

There is a great deal of narrative and teachings of Jesus that are unique to Luke among the four canonic gospels. These texts provide a concise vision of the theological intention of the evangelist.

## Missing Parishioners?

Are there people you haven't seen at Sunday Mass lately? There can be lots of reasons, but maybe it's simply they are ill, or are unable to drive to Mass any longer.

If you know of these "missing" parishioners, we would like to reach out to them, visit them and bring them Communion if they wish. We need your help by making us aware of these parishioners, and we will do the rest.

Sometimes those who are "shut-in" are very lonely, and don't realize we offer this service. You can really make their lives more enjoyable by giving us their names, and if you know them, their phone numbers and addresses.

It would be a real act of charity on your part if you would call the parish office and provide us with the names of those you haven't seen in a while.
